I. INTRODUCTION

This report presents an analysis of central government expenditure from January 1st – June 30th, 2023. The purpose of this report is to inform all relevant stakeholders on the composition of Government Local Fund (GLF) expenditure for the period under review highlighting the – spending rates of different Budget Entities (BEs) and different budget line items.

This report also indicates prior year comparatives and spending patterns. It should be noted that all expenditure herein refers exclusively to GLF denominated in Gambian Dalasi (GMD) and does not factor any donor sourced funding including external loans and donor project grants. Key things to note;

1. The overall GLF expenditure as at end June is 53% of 2023 GLF budget.
2. Like May, Personnel Emoluments and Debt Service came out as the top expenditure classes with both consuming 55% and 57% during the period, respectively.
3. Capital Development has decreased substantially from GMD 2.16 billion last year to GMD 1.34 billion this year, representing a 38% fall in spending during the period under review. **It is important to note here that a great proportion of the distributed funds to the Ministry of Work for the Fiscal Year 2022 , was spent towards the Bertil Harding Highway project.**

II TOTAL GOVERNMENT EXPENDITURE

Government's total expenditure for the period of January to June 2023 (Jan-June) amounted to **GMD 11.57 billion** as compared to **GMD 11.23 billion** during the same period last year, representing a **3% increase** in year-on-year GLF spending.

This overall upward trend is attributable to a positive Year-on-Year (Y-o-Y) growth in Personnel Emoluments (28%) and Other Recurrent (13%).

Details of government spending by economic class is given in [Table 1](#) below

Total PE increased by 28% to reach GMD 3.38 billion compared to GMD 2.64 billion from the same period last year. Basic Salary has consumed 50% of Total PE, registering a 46% Y-o-Y increase. Allowances have consumed 43% and registered a 10% Y-o-Y increase. Meanwhile, ECA has consumed 7% of Total PE, increasing by 51% Y-o-Y. Finally, Social Security Contributions have decreased to GMD 2.41 million, representing a decrease of 33% Y-o-Y.

This overall increase in PE Y-o-Y, may be attributed to two reasons. Firstly, due to the 30% increase in Basic Salary from the Revised 2022 Budget and also the creation of the Ministry of Communications and Digital Economy, and the Ministry of Public Service, Administrative Reforms, Policy Coordination and Delivery.

Secondly, the depreciation of the dalasi against foreign currencies such as the dollar and euro, has increased ECA spending by 51 on a y-o-y basis therefore increasing total PE spending.

Table 3A details the Approved 2023 Budget for PE as compared to end June expenditure. ECA has accounted for 70% of its approved budget. Basic Salary and Allowances have each accounted for 54% and 56% of their respective budgets. There has been a GMD 5 million expenditure on the Civil Service Staff Loan for June. Social Security Contribution represented an expenditure of 13% of its budget.

III. Top Spending Budget Entities (BEs) in Jan-June

The National Debt Service is the highest spending BE, consuming 21% of total expenditure for the period under review. This can be attributed to the drastic increase of interest rate on short-term instruments. The Ministry of Basic and Secondary Education is the second on the list consuming 16% of total expenditure. These ten BEs (indicated in Table 4 below), including the National Debt Service account for GMD 9.88 billion of total expenditure for end June 2023, representing 85% of total expenditure for the period under review.

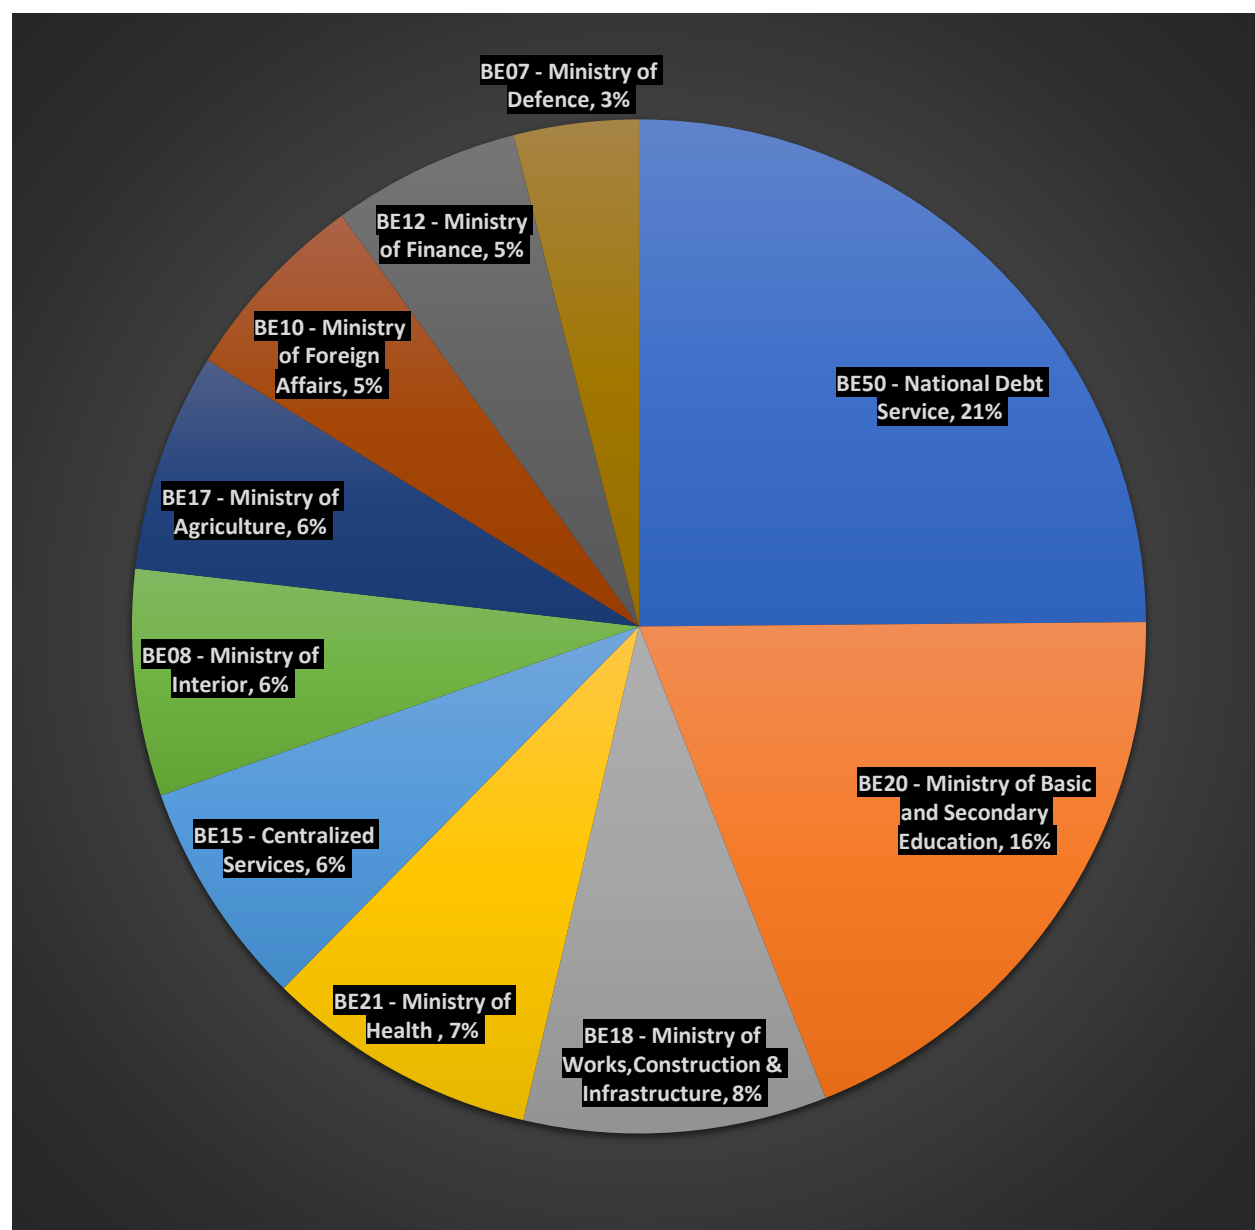

It is important to note here that the reason for the huge variance under Ministry of Agriculture is that; Input Subsidy is now expensed by the Ministry of Agriculture though it was initially budgeted under the Centralized Services.
